Mentoring can provide a student with personal support throughout the ups and downs of their academic journey and professional pursuits. As students learn new things, they may wish to discuss their ideas with the teachers who share their interests, keeping in view all these aspects, the Department of Garo has assigned 6 (six) faculty members for mentoring Garo Honours students, both for odd and even semesters.

MENTOR MENTEE REPORT
(ODD SEMESTER) 2021 - 2022

MENTORING : The Students of each semester (I, III and V) are usually divided into groups in the ratio **1 : 10 – 15** . Each group is placed under the mentorship of teachers who take that particular paper/ semester so as to give proper guidance to improve the performance of the students and to help them face any challenges.

ISSUES RAISED

1. Many students found it a challenge to adjust back to normal classes after the pandemic.
2. Students raised the issue related to certain topics in the syllabi which they found difficult.
3. Exam related problems, for instance how to answer the questions and to manage time.

ISSUES RESOLVED

All the Mentors had a general meeting and every attempt is made to address the student problems through discussion in the class. Mentoring is done as and when the need arises. Previous years questions are given and materials on topics not easily accessible to students are supplied. Through repeated efforts mentors have tried to instill confidence, to enable students tackle questions as well as manage time during exams.

Every possible effort is made by each mentor to help the students concentrate in their academics. Discussion on what career options are open to them as history students are regularly conducted.

If any student comes to a mentee with other issue, the mentee has always tried to give the best possible support and guidance.

MENTOR MENTEE REPORT
(EVEN SEMESTER) 2021 - 2022

Mentoring :

Students are divided into groups in **the ratio 1 : 10 – 15** and placed under the mentorship of teachers who take that particular **paper/ semester.** Mentoring of students is carried out solely with the purpose of providing guidance and motivation to improve or increase their everyday performance in academics.

ISSUES RAISED

- Problems related to topics in the syllabi and solving previous year questions.
- Exam related problems.
- Guidance related to best career options.

ISSUES RESOLVED

- Mentors have tried to ease the problems through regular discussion in the class. Students have been encouraged to cultivate the habit of reading to enhance their knowledge of the subject. Previous years questions are given to students and every effort is made to guide them and show them how to tackle the questions and manage time during exams.
- Every possible effort is made by each mentor to help the students concentrate in their academic career. Mentors encouraged students to take active part in class interaction during group discussions as a part of confidence building. Discussion are frequently conducted on different career options open to history students.
- If a student comes to a mentee with any other issue, the mentee has always tried to give whatever help or best guidance possible.

MENTORS:

1. Dr. Pynsakhiat Miki Gashnga
2. Shri. Smarling Suting

Issues Raised:

1. Requested for revision of Organic Stereochemistry-I.
2. Requested for demonstration and explanation of Group separation of basic radical for Inorganic Practical.
3. Requested for improvement of Chemistry Laboratory and supply of sufficient apparatus.
4. Requested for discussion of old question papers.
5. Requested for previous year question papers.
6. Requested for demonstration and proper explanation of preparation of Lassaigne's filtrate.
7. Requested for notes.

Issues Resolved:

1. Revision is done on the topic Organic Stereochemistry-I.

2. Explained and demonstrated group separation of basic radical for Inorganic Practical.

3. Chemistry laboratory has been improved and sufficient apparatus are procured for the Department.

4. Old question papers are discussed.

5. Previous year question papers are distributed.

6. Explained and demonstrated preparation of Lassaigne's filtrate.

7. Notes are supplied.

Mentor Mentee Report 2020-2021 ODD Semesters

Students well being and success is the main primary goal of any Institution. Mentoring is one method adopted to learn about the weakness and shortcomings in learning process and to guide and provide help to achieve their goal, by finding solutions to their problems. The mentor- mentee relationship can be very enriching for both the mentor and mentee in several ways, however, it requires the utmost commitment from the mentor/teacher.

The Botany Department, Tura Government College, Tura, also maintain the Mentor-Mentee relationship. Each of the six teaching faculty members are allotted their own number of Botany Honours students/mentee from each semester for mentoring.

Due to time constraint, mentoring cannot be given sufficient time. Moreover, most of our students are reserved and some are too complacent to come out with their problems, thus limiting the mentors' ability to provide help. However some students after much encouragement come up with some issues. The issues raised by the mentors and the mentees during the mentoring process of ODD Semesters , i.e. the First, the Third and the Fifth Semesters, are compiled below from all the Mentors.

Semester	Serial No.	Issues raised	Issues resolved
Ist Semester	1	Maintaining Discipline with regard to attendance, cleanliness	The issue was resolved by maintaining strict attendance record and cleaning drive were mobilized time to time
	2	Assisting students with various adjustments to academic life	This was reported and problems were identified and personal counselling was undertaken. Introductory lectures were also undertaken to understand the level of learning
	3	Students raised concern regarding the condition of microscope in the practical classes	The microscopes which is not in good condition are replaced with the new ones.
		Hard copy of study material was requested	Hard copy of study material was provided
3rd Semester	1	Previous years question papers were requested to be provided and discussed	The question papers of previous years was provided and discussed properly
	2	Provision of additional notes and study materials.	Students were provided additional notes and study materials.
	3	Students who were irregular in both theory and practical classes were called up and their problems if any, were asked.	Such student was encouraged to attend classes regularly. Parents were also informed about such students to take special attention towards their ward/child.

Vth Semester	1	Some students raised about the duration of practical classes, mentioning their inability to complete the practical experiments on time	This issue was resolved by conducting extra practical classes for such experiments
	2	Some topics of Plant Physiology and Biochemistry was requested to revise.	Such topics raised by students were revised.
	3	Previous years question papers were requested to be provided and discussed	The question papers of previous years were provided and discussed properly

Besides, the students were always reminded by the mentors of the following necessary actions :

1. The students were reminded to maintain strict discipline in the class room,the campus and outside all the time.
2. The students were regularly reminded to write and submit their practical experiment in practical record books in time.
3. The students were reminded regularly to go through at home, the topics taken during the classes and to tell the teachers if they face any problem in such topics, so that it can be discussed again in the next classes.

Mentor Mentee Annual report 2021-22(EVEN Semester)

Students well being and success is the main primary goal of any Institution. Mentoring is one method adopted to learn about the weakness and shortcomings in learning process and to guide and provide help to achieve their goal, by finding solutions to their problems. The mentor-mentee relationship can be very enriching for both the mentor and mentee in several ways, however, it requires the utmost commitment from the mentor/teacher.

The Botany Department, Tura Government College, Tura, also maintain the Mentor-Mentee relationship. Each of the six teaching faculty members are allotted their own number of Botany Honours students/mentee from each semester for mentoring.

Due to time constraint, mentoring cannot be given sufficient time. Moreover, most of our students are reserved and some are too complacent to come out with their problems, thus limiting the mentors' ability to provide help. However some students after much encouragement come up with some issues. The issues raised by the mentors and the mentees during the mentoring process of EVEN Semesters , i.e. the Second, the Fourth and the Sixth Semesters, are compiled below from all the Mentors.

Semester	Serial No.	Issues Raised	Issues Resolved
Second Semester	1	One or two outstation students coming from their own homes/villages faced the problem of not reaching the college in time for morning classes.	The issue was resolved by arranging Hostel Rooms for such students and that they could attend the classes in time.
	2	Some students were found to be irregular for both the theory and practical classes, were called up and asked them their problems.	This issue is resolved by encouraging those students to attend classes regularly and reminding them of the 75% attendance requirement by the NEHU for appearing in final examinations.
	3	Hard copies of study materials were requested.	This issue is resolved by encouraging them for library visit and also by providing them the required notes and text books
Fourth Semster	1	Some students of IV Semester were reluctant to go for Study Tour due to financial constraints towards contribution for fooding.	The issue is resolved by paying the contribution for fooding by the faculty members for those students.
	2	The condition of the microscopes used for practicals were raised .	The issue is resolved by replacing the old microscopes with new ones.
	3	Questions from previous years were requested to be provided and discussion also requested.	The issue is resolved by providing the question papers and by discussing the questions.

Sixth Semester	1	Some students raised their inability to pay their Exam fees in time for their registration for final exams.	The issue was resolved by faculty members contributing for payment of Exam fees.
	2	Question papers from previous years were requested to be provided and discussion.	The question papers of previous years were provided and discussed properly.
	3	Hard copies of study materials were requested.	This issue is resolved by providing them the text books and notes.

Besides, the students were always reminded of the following necessary actions :

1. The students were reminded to maintain strict discipline in the class room,the campus and outside all the time.
2. The students were regularly reminded to write and submit their practical experiment in practical record books in time.
3. The students were reminded regularly to go through at home, the topics taken during the classes and to tell the teachers if they face any problem in such topics, so that it can be discussed again in the next classes.

Department of Zoology

Zoology department has assigned two teachers for mentoring each semester, both even and odd, for Zoology honours students. During the mentoring session students were asked to write their issues anonymously, which were then discussed and resolved. The students were advised to attend classes regularly. The issues raised by the mentees and the resolution taken up during the mentoring session are compiled below:

Mentor Semester I	Issues raised	Issues resolved	Signature	Date
1. Shri Taseng K. Marak 2. Smt. Cordelia P. Warbah	1. Students were not aware of the class timing and thus coming to the classes late and irregular.	Students were asked to come to the class regularly on time. The class routine was given on the notice board.		8.12.2021
	2. Students were still applying for professional courses such as medical, engineering, nurses etc. and also appearing for interviews in various institutions, they come to the classes irregularly in the beginning of the semester.	Students were briefed about the college and department functionaries, laboratory maintenance etc. Make them aware of the internal tests and assignments to be conducted every month.		
	3. Students were having problem with the time management for their classes and studies.	They were asked to maintain the proper timing according to the class routine and to study regularly.		
	4. They have raised about the procurement of the text books	Awareness was given about the college library and told to get the recommended text books from the library
