RELEVANCE OF THE TOUR TO CURRICULUM:

For the student of botany the exposure trip is significantly important. Its relevance can be seen from the fact that such trip is also encouraged in the syllabus in the form of a field trip, to enlighten the students with the diverse vegetation around.

This trip allows the student to experience a very different type of vegetation present in the Western Ghats of the Indian peninsular, the one which is vastly different from the one we are used to in Garo Hills, in particular and Meghalaya in general.
