C. BENEFIT OF THE TOUR TO THE STUDENTS

Study tour to the state of Jammu & Kashmir and Delhi, India give the student a welcome break in the routine. It erases the boredom of classroom lectures, and it awakens student's interest to learn and get new learning information.

The trip also benefitted the student by allowing them to encounter new environments and new cultures. During such trips students can feel a sense of accomplishment by broadening their interactive skills and knowledge. By seeing real-life application of the lessons that they are

learning in their college, students will be more likely to understand and appreciate the importance and relevance of what they are learning.

D. RELEVANCE OF THE TOUR TO CURRICULUM

For the student of botany the exposure trip is significantly important. Its relevance can be seen from the fact that such trip is also encouraged in the syllabus in the form of a field trip, to enlighten the students with the diverse vegetation around.

This trip allows the student to experience a very different type of vegetation present in the Trans Himalayan region of Northern part of India. The students were able to see the grassy meadows, moist mixed deciduous forest, and alpine and sub-alpine forests which is vastly different from Garo Hills, in particular and Meghalaya in general.
